

AMERICAN INDEXING GROUP

Sample Index — Medical / Clinical Reference

From the index of a clinical procedures reference. Indented style; t denotes a table locator.

Title, author, and publisher details withheld. Excerpt shown; full sample available on request.

A

Abdomen

- anatomical skeletal landmarks of, 462
- soft tissues of, 463
- sutures to, 89t

Abdominal obstetric ultrasound, 270–271, 272t

Abdominal x-ray interpretation, 460–467

- abdominal gas, 465
- anatomical skeletal landmarks of the abdomen, 462, 462
- CPT code, 460
- indications and contraindications, 461
- overview, 460–461
- paralytic ileus, 466
- pneumoperitoneum, 465, 467
- procedure, 461–465, 462–467
- rationale, 461
- red flags in, 461, 461t
- soft tissues of the abdomen, 462–463, 463
- stomach, 464, 464–465

Abscesses. *See also* Bartholin cyst abscess incision and drainage; Pilonidal cyst/abscess incision and drainage, 13–19

- CPT code, 13
- equipment, 15
- furuncle, 15, 16–17
- health promotion/prevention, 14
- indications and contraindications, 14
- overview, 14
- paronychia, 16–18
- perianal, 18–19
- pilonidal, 18
- procedure, 15–19, 16–17
- rationale, 14

Acetone, 384

Acrochordon. *See* Skin tag (acrochordon) removal

AC shoulder dislocation, 136, 142

Actinic keratoses, 1, 6, 62t, 63

Adenocarcinoma, 452t

Aerosol inhalation administration (nebulizer), 407–410

- client instructions, 409–410
- CPT code, 407
- equipment, 408, 409t
- indications and contraindications, 407
- overview, 407
- procedure, 408, 408–410, 409t
- rationale, 407

AFI. *See* Amniotic fluid index (AFI)

Aircast ankle splinting technique, 172

Air flow, 412t

Airway resistance, 412t

Albinism, 12t

Albuterol, 409t

Alginates, 116t

Allen's test, 393, 396

Allergy to local anesthetics, 42

Alpha-2 agonists, 307t

Aluminum chloride 30% (Drysol), 114t

Aluminum thumb splint, 174, 174–175

Amblyopia, 295

American Thoracic Society Guidelines for Spirometry Effort, 422t

Amniotic fluid index (AFI), 262t, 263t, 264

Anaphylaxis, 411t

Anatomy, female, 256

Anemia, sickle cell disease, 262t

Anesthetic agents

- for intra-articular and bursa corticosteroid injection, 153
- ophthalmic, 302t, 310, 310t

Angler's string-yank method, 39, 39

Ankle

- splinting of, 167
 - aircast technique, 172
 - posterior splint, 171, 171–172
- taping of, 167
 - basket-weave technique with heel lock, 178–179, 179
 - Louisiana ankle wrap technique, 176, 176–177
 - open Gibney technique with heel lock, 177, 177–178
 - open Gibney technique without heel lock, 178, 178

Ankyloglossia. *See* Frenotomy for ankyloglossia

Anoscopy, 445–447

- client instructions, 447
- CPT code, 445
- indications and contraindications, 445
- overview, 445
- procedure, 446–447, 446–447
- rationale, 445

Ant bites. *See* Bites

Anterior nasal packing technique for epistaxis control, 334, 334–335

Antibiotics

- for burns, 32t
- for cat, dog, human, and monkey bites, 26t
- for insect bites, 22t
- ophthalmic, 302, 302t, 306t, 310, 310t
- for tick infestations, 106

- topical, 32t
- Anticoagulant therapy, 42
- Antidepressants, 194t
- Antihistamines, 338
 - for insect bites, 22t
- Antihypertensives, 194t
- Anti-inflammatories, 409t
- Antivirals
 - for condyloma acuminatum, 229t
 - eye medications, 306t
- Anus, anatomy of, 447
- Apgar score, 274, 275t
- Arms
 - anatomy of compartments of, 127, 128
 - sutures to, 89t
- Arterial blood gases
 - expected values for, 393, 393t
 - unexpected values with interpretation, 393, 394t
- Arterial puncture, 393–397
 - client instructions, 397
 - CPT code, 393
 - equipment, 394–395
 - expected values for arterial blood gases, 393, 393t
 - indications and contraindications, 394
 - overview, 393
 - procedure, 394–397, 395–396
 - rationale, 394
 - site selection, 395, 395
 - unexpected arterial blood gas values with interpretation, 393, 394t
- Arterial system, anatomy of, 359, 360
- Arthritis, 153
- Arthrocentesis, 123–126
 - client instructions, 126
 - CPT code, 123
 - equipment, 124
 - indications and contraindications, 124
 - options, 124
 - procedure, 124–126, 125
 - with intra-articular corticosteroid injection, 126
 - only, 124–125, 125
 - rationale, 124
- Arthropod bites. *See* Bites
- Ash-leaf spot of tuberous sclerosis, 12t
- Asthma, 411t
- Atrial fibrillation, 370
 - defibrillation for, 402
- Atrial flutter, 367, 369

- defibrillation for, 402
- Atrial hypertrophy, 371–373, 373
- At-risk fetal assessment, 261–264. *See also* Obstetric ultrasound
 - CPT code, 261
 - indications and contraindications, 262, 262–263t
 - overview, 261–262
 - procedure, 264
 - amniotic fluid index (AFI), 264
 - obstetric ultrasound, 264
 - protocols for various fetal complications, 263t
 - protocols for various patient complications, 262–263t
 - rationale, 262
- Atypical neuroleptics, 194t
- Audiogram, 283. *See also* Audiometry testing
- Audiometry testing, 283–286
 - client instructions, 286
 - CPT code, 283
 - equipment, 284, 285
 - health promotion/prevention, 283–284
 - adults, children, and adolescents, 283–284
 - infants and toddlers, 284
 - indications and contraindications, 284
 - manufacturing companies, 286
 - overview, 283
 - procedure, 284–286, 285–286
 - rationale, 284
- Auricular hematoma evacuation, 322–325, 323
 - client instructions, 324–325
 - CPT code, 322
 - equipment, 323–324
 - indications and contraindications, 323
 - overview, 323
 - procedure, 323–325, 325
 - rationale, 323
- AV blocks, 365, 366
- Avulsion, 42, 43
 - partial, with phenolization, 44–45, 45–46

B

- Babesiosis, 106
- Back, sutures to, 89t
- Bacteroides* species, 26t
- Barb sheath method, 38, 39
- Bartholin cyst abscess incision and drainage, 218–221
 - client instructions, 221
 - CPT code, 218
 - equipment, 220

- indications and contraindications, 220
- overview, 219, 219–220
- procedure, 220–221
- rationale, 220
- Bartholinitis, 218, 219–220
- Basal cell carcinoma, 1, 6, 63, 64
- Basic metabolic panel (BMP), 130t
- Basket-weave technique with heel lock, 178–179, 179
- Bee stings. *See* Bites
- Benign masses, breast, 187
- Benign nevi, 63
- Benzoin, 86, 247
- Betamethasone, 151t
- Bimanual vaginal examination, 257–258, 257t, 259
- Biopsy
 - breast, fine needle aspiration, 187–189
 - cautery and cryosurgery skin lesion removal
 - contraindications, 63
 - cervical, 197–202, 210
 - colorectal, 451, 452t
 - endometrial, 203–205
 - punch, 1–4
 - skin, 5–11
 - curettage, 6, 8, 8
 - elliptical excisional, 6, 8–10, 9–10
 - shave, 5, 7, 7–8
- Bites
 - ants, arthropods (spiders), bees, and wasps, 20–23
 - client instructions, 23
 - CPT code, 20
 - equipment, 22
 - indications and contraindications, 21–22
 - overview, 20, 21t, 22t
 - procedure, 22–23
 - rationale, 21
 - cats, dogs, and humans, 24–27
 - client instructions, 26–27, 26t
 - CPT code, 24
 - equipment, 25
 - health promotion/prevention, 24
 - indications and contraindications, 24–25
 - overview, 24
 - procedure, 25–27, 26t
 - rationale, 24
- Biventricular pacemakers, 391
- Black widow spiders, 21t
- Bleeding abnormalities, 42
- Boil (furuncle), 13
 - incision and drainage, 15, 16–17
- Bone age, 120, 121
- Bone density, 120, 121
- Bones x-ray interpretation, 119–123
 - CPT code, 119
 - equipment, 120
 - indications and contraindications, 120
 - overview, 119–120
 - procedure, 120–121, 121–123
 - rationale, 120
- Borg scale, modified, 425t
- Braided polyester sutures, 101t
- Breast biopsy, fine needle aspiration, 187–189
 - client instructions, 189
 - CPT code, 187
 - equipment, 188
 - indications and contraindications, 188
 - overview, 187
 - procedure, 188–189, 189
 - rationale, 187
- Breast carcinomas, 187
 - breast examination for, 190–196
 - major risk factors, 190t
- Breast examination, 190–196
 - client instructions, 194
 - clinical, 192–194, 193, 195–196
 - contraindications, 191
 - CPT code, 190
 - medications that increase prolactin levels, 194t
 - overview, 190–191, 190t
 - procedure, 192–194, 193, 194t, 195–196
 - rationale, 191
 - tests for, 192t
 - types of breast nodularity, 191t
- Breastfeeding, teaching, 277–281
 - contraindications, 278
 - CPT code, 277
 - infant reflexes, 278, 278t
 - overview, 278, 278t, 279t
 - procedure, 278–281
 - alleviating concerns about low milk supply, 281
 - facilitate proper latch and positioning, 278–280
 - hand expression, 280
 - on handling a fussy baby, 281
 - how to deal with engorgement, 280
 - how to deal with sore nipples, 280–281
 - massage, 280
 - rationale, 278
